EXPRESS YOUR INTEREST

Epic Journeys on World Heritage Railways

The subcontinent of India has much to offer people from all walks of life, covering a plethora of interests and passions. Scattered across the country are meticulously crafted museums showcasing centuries of history, iconic railway buildings that have stood the test of time, narrow gauge hill railways, and some of the oldest working steam locomotives in the world.

Heritage rails and their scenic memorable routes are not just mere tourist attractions, they are an integral part of the history of the land. A myriad of opportunities are available today to experience the many Heritage Rail Journeys in India and rekindle the memories of the golden age of rail travel when the journey and not the destination was of more essence.

India is home to the UNESCO World Heritage Chattrapati Shivaji Terminus in Mumbai, as well as three fully operational mountain railways designated as UNESCO World Heritage sites. These are the *Darjeeling Himalayan Railway* in West Bengal, the *Nilgiri Mountain Railway* in Tamil Nadu, and the *Kalka– Shimla Railway* in Himachal Pradesh.

Come - experience India's Railway Heritage.
